Involving a studio audience with a quiz has never been easier.

KEY FEATURES:

- ✓ Stand alone
- ✓ Exports XML File for implementation into self-written applications
- ✓ Secure data transfer
- ✓ Free numeric entry
- ✓ Speed measurement
- ✓ Group specific evaluation of candidates
- ✓ Network controlled steering

Secure Data Transfer, fast and flexible assembling, free definition for in and output format, Single or Multi Digit and a separate evaluation for the audience are only a few of the features provided by the TV package.

TED4TV™ is a solution that is developed especially for TV-Shows and Game Designers which may use VENTUZ or other strong graphic software. If you develop and design output graphs for TV-Shows, Games or other solutions, TED4TV™ will provide you with the raw voting data from the audience by remote controlled XML file transfer. Integrate START, STOP and SAVE Command lines into your applications in order to calculate results of single or multi digit entries.

SOFTWARE COMPARISON CHART

QUICK OVERVIEW

The list of functions below is not an exhaustive list of all the capabilities. Please call if you cannot see the specific functionality that you require.
