Are you a registrar, union or association and you don't want to hand over valuable shareholder data to a 3rd party just to be able to perform Agenda item votes or candidate elections electronically?

With the iAssembly™ package you get full control of the votes, detailed login, instant feedback to the shareholder for every action and a validated result that can be imported into your system.

KEY FEATURES:

- ✓ YES / NO / ABS Votes with (Abstain Optional)
- ✓ Individual Feedback to the Keypads, subject to keypad selected (text is changeable)
- ✓ Candidate Election
- ✓ Top Investors monitor
- ✓ Live Export to XML and Output to the Screen
- ✓ Live validation with Feedback to the Keypads

iAssembly™ is especially developed for AGM's hosted by Corporations, Associations, Union, investment companies and registrars

The specific requirements of shareholder meetings (AGM's) and Candidate Elections have a multitude of different requirements dependent on the country where they are taking place and specific company rules. The iAssembly™ software's has been constructed to provide the unweighted voting, validations and candidate selection processes covering most scenarios.

SOFTWARE COMPARISON CHART

QUICK OVERVIEW

The list of functions below is not an exhaustive list of all the capabilities. Please call if you cannot see the specific functionality that you require.
